## **Final Report now available: IIU concludes investigation into injuries from “less lethal” firearm used by The Pas RCMP**

On February 7, 2020, the Independent Investigation Unit (IIU) had issued a media release advising that it had concluded its investigation into an incident into the injury of a 36-year-old man during his arrest by RCMP in The Pas.

The final report of the IIU was not released as the affected person had charges pending before the courts as a result of the incident. Those charges have now been disposed and the IIU final report is now available on the IIU’s website. The details of this investigation were first announced on September 16, 2019.
