Final Report now available: IIU concludes investigation into deployment of “less lethal” firearm by Brandon Police Service

On October 9, 2020, the Independent Investigation Unit (IIU) had issued a media release advising that it had concluded its investigation into the use of a less lethal firearm by Brandon police to subdue a 51-year-old male.

The final report of the IIU was not released as the affected person had charges pending before the Courts as a result of the incident. Those charges have now been disposed and the IIU final report is now available on the IIU’s website. The details of this investigation were first announced on June 19, 2020.
