Final Report now available: IIU terminates investigation into serious injury during an RCMP arrest

On August 7, 2020, the Independent Investigation Unit (IIU) had issued a media release advising that it had terminated its investigation into an incident that occurred on July 22, 2020, where, during the course of an arrest by RCMP, a male sustained a self-inflicted gunshot wound.

The final report of the IIU was not released as the affected person had charges pending before the Courts as a result of the incident. Those charges have now been disposed and the IIU final report is now available on the IIU's website. The details of this investigation were first announced on July 23, 2020.
